

## AICRP on National Seed Project (Crops) - Breeder Seed Production

Quality seed is one of the basic and vital input in agriculture and 15-20% of yield can be enhanced by use of quality seeds.

UAS, Raichur established independent Seed Unit to cater the needs of quality seeds including breeder, foundation, certified and truthfully labelled seeds in north eastern Karnataka.

ICAR - Indian Institute of Seed Science, Mau sanctioned **AICRP on Breeder Seed Production project** and **ICAR - Seed Project : Seed Production Agril. Crops** during 2013-14 and with an objective to produce the nucleus and breeder seed as per the indent under breeder seed production project and quality seeds (foundation, certified and truthfully labelled seed) under ICAR - Seed Project.

Considering the performance of the ICAR - Seed Project : Seed Production in Agril. Crops Seed Unit, UAS, Raichur awarded as **Best Performance Centre** during 2017-18 by ICAR -Indian Institute of Seed Science, Mau.

Post sanctioned under the project Technical Assistant - 01

### Office Incharge

**Dr. Basave Gowda**  
Special Officer (Seeds) &  
Nodal Officer, National Seed Project (crops)
